

3-POINT CONTEST

Official Manual by

nvd123

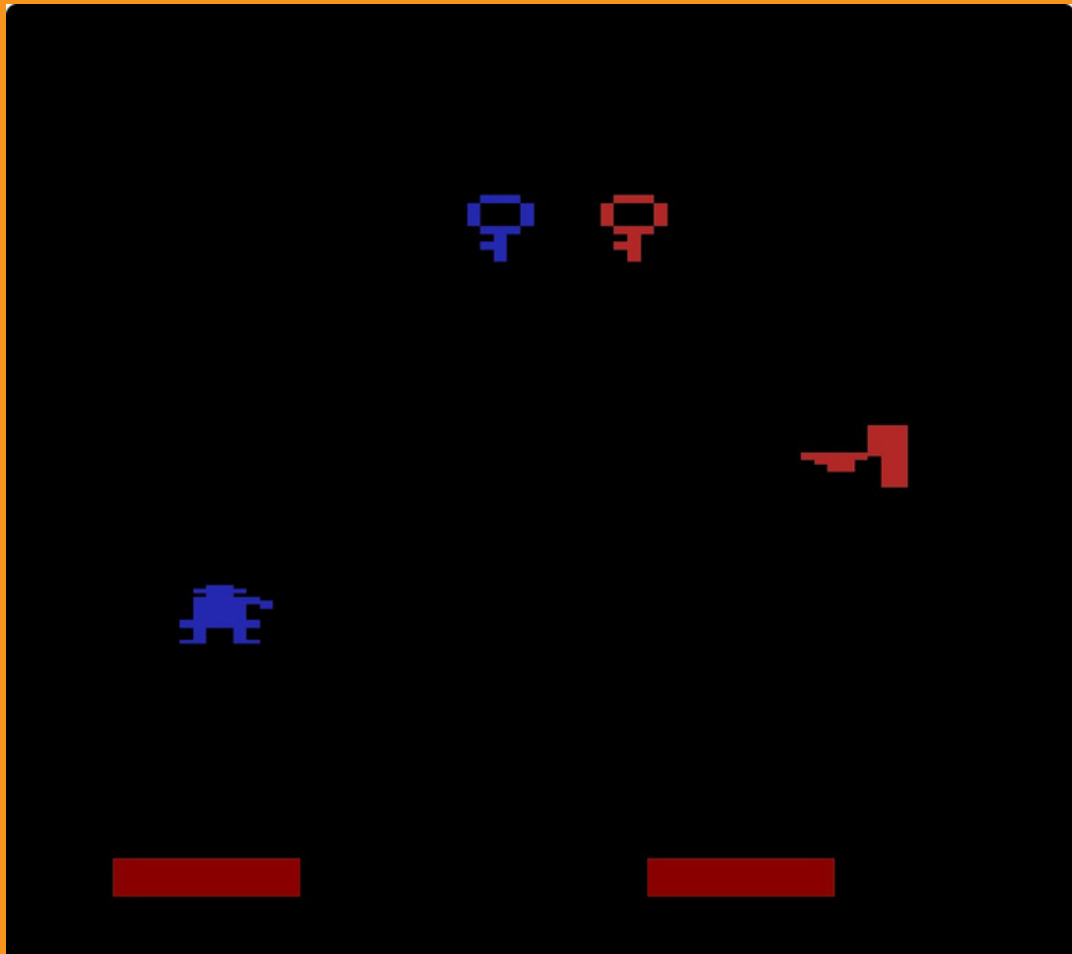

How To Start

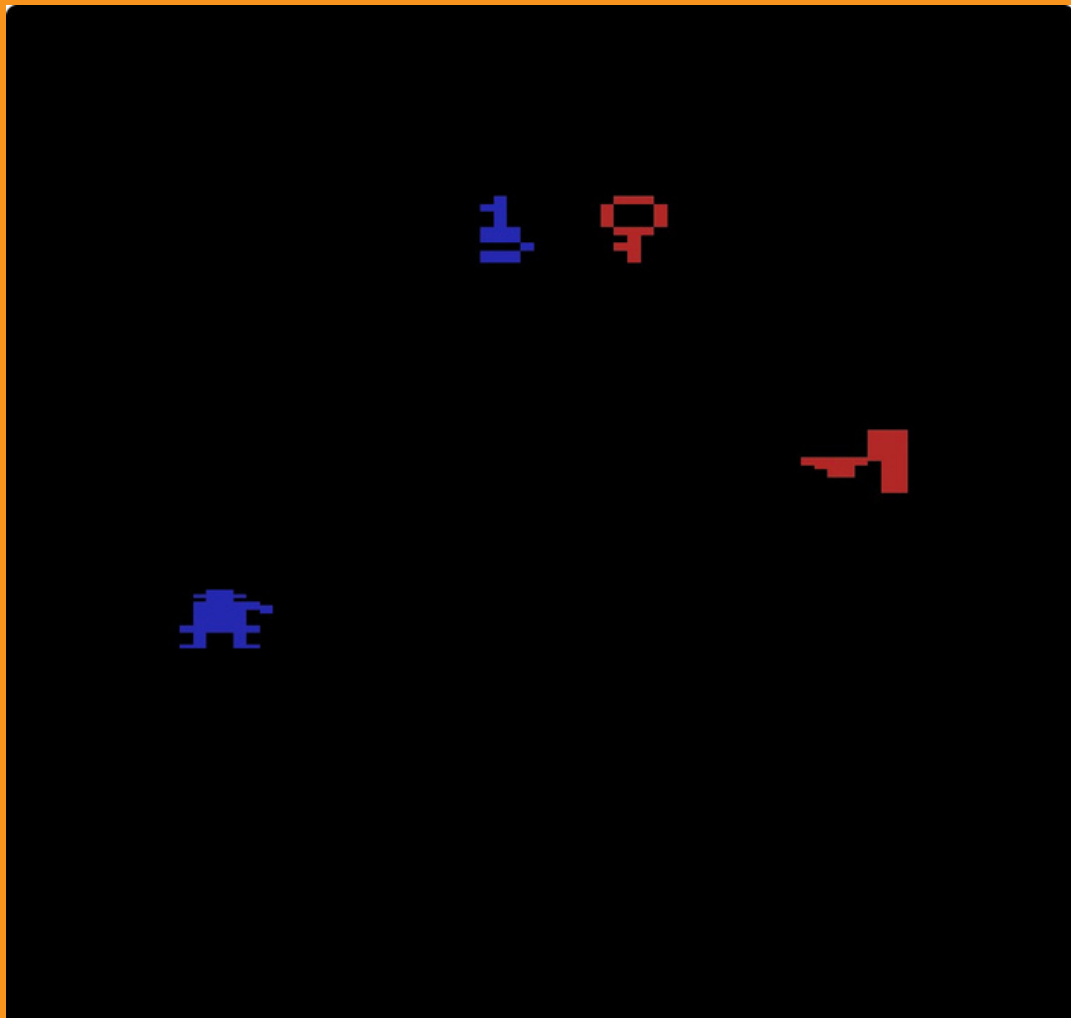

Upon inserting the cartridge or loading your digital ROM, the game will display a screen looking like this. Use the fire button to start

Controls

Once the game starts, you will notice two power bars in the bottom of the screen. These represent the power of your shot. When you think the power bar is filled just the right amount, click FIRE to shoot

Game Play

You will have 20 balls, and you have to make as many shots as you can. Your score is displayed at the top of the screen. Once the game ends, players can click fire to start again.

the picture above shows a game ending with a score of 10
