Programmed by XAN

**Double Olioni Vol.1 is compatible with your Atari 2600 console system, and is also compatible with the Atari 2600+.**

**Note: All rights are reserved to the programmer XAN, distribution belongs to Olioni Games, the sale and marketing of home copies without authorization and without profit for Olioni Games is prohibited, the only authorized producers are: BAH GAMES and 8 Bits Milli Games.**

## **(Super Combat) controls**

**Players control the weapon in the following positions: UP - DOWN - LEFT - RIGHT, as shown in the example to the side, with the "FIRE" button starting the game screen and used to fire bullets at enemies.**

**The tanks will follow you and fire at you; try to find a way to avoid their shots and counter-attack. The jets in the sky will drop bombs; dodge them for a certain period of time.**

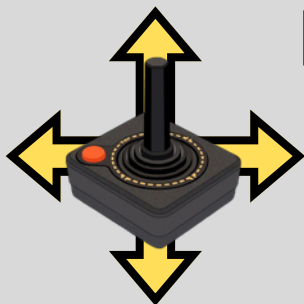

# Objective (Super Combat)

You have been assigned a mission to invade the enemy area, fight them, in order to win the war and help the allies, be very careful, as it will not be an easy mission, the enemy is equipped with planes that will drop bombs to destroy you and prevent your mission.

Be careful with the planes, the further you progress in your mission, the faster the enemies will get, so dodge the projectiles.

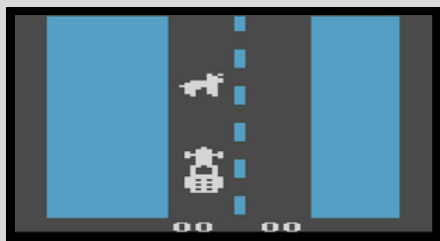

## Controls (Donkey Drive)

Players control the weapon in the following positions: LEFT - RIGHT, as shown in the example to the side, with the "FIRE" button initiating the game screen.

During the journey, the speed increases and more donkeys appear on the road, making your passage a little more difficult, so dodge them and be quick with your reflexes.

## Objective (Donkey Drive)

You are on a road trip near California, but the road is full of donkeys, so your goal is to reach your destination and avoid colliding with the animals. You need to overtake five stages... count them using the counters below.

Left (Collision with Donkeys) - Right (Player Overtaking)

# Credits

**Programmed by XAN**

**Designed by XAN**

**Distributed by Olioni Games**

**Produced by 8 Bits Milli Games.**

**Mr. Xan is an Atari 2600 programmer. He started programming on his YouTube channel Games and Programming, with tutorials, teaching people. With his talent, he was recognized on the Atariage forums, by Zeropage Homebrew. With that, Mr. Olioni decided to help this young man by giving him the opportunity to enter this market, selling his games on the Olioni Games Inc. website.**

**END.**

**Do you know 8 Bits Milli Games? No? Well, now you can, because they are responsible for our games on game cartridges, filling your library with fun games.**
